				Metallic black	771490		

*The 2x magnification and 3x magnification mirrors are made of concave mirrors having the radiuses of curvature (R) of 1000 and 600 respectively.

[Precaution for use]The magnification mirrors may focus the sun's rays to burn up a combustible material and cause fire. So do not use or store the magnification mirrors under direct sunlight. *At first, move your face close to the magnification mirror and then move away from the mirror to find the focal point you can see clearly reflected image. *Do not look at the magnified image too long. It may cause eyestrain or make you feel sick.

*Do not give impact to the mirrors by dropping off, etc. Impacted mirrors may break and hurt the user. *The metal parts of the mirrors are deteriorated when stored at high temperature and humidity for a long time. *Chemicals sticking on the mirrors must be wiped off with dry cloth.

*Each of the "JAN codes" given in six digits in this catalogue constitutes the product code and check digit, and follows the code, 4510510 indicating the country and manufacturer codes.
