## scene2

### Vertical triple mirror

Eye makeup can be checked for downcast, straight and upturned eyes.

Japanese Patent No. 3732490

### What is "Napure Mirror"?

The mirror reflecting the real color of your skin as seen by others  
The most suitable mirror for matching the colors of your skin and a foundation and for partial makeup

Glass of high clarity + Reflective metal layer by vacuum deposition =

### Glass of high clarity

The glass used for the conventional mirrors contains considerable amount of iron to absorb blue light of the incident light and make white color look dull. We have developed "Napure Mirror" made of clear glass with minimum iron content. "Napure Mirror" rarely changes the reflected colors to show natural and pure colors without influence by the glass. Thus "Napure Mirror" is the most suitable for matching the foundation to the colors of your skin and partial makeup.

### Comparison in reflection (in our test)

Napure Mirror  
The mirror of ultra-clear plate glass reflects natural and pure colors with minimum change.

# Direction Slant Height Free Style

The Napure Mirror reflects the real color of your skin.  
Convenient for the makeup on the whole of your face and for partial makeup such as eye makeup.
